Profile

Currently, I'm a young & talented and rising Frontend developer.

If you take a look at my background, you'll probably see always working and learning as a boy.

In my early ages, I spent my time to be perfect in every field. Unlike others, I chose a school that is specialized for English & Math & Computer Science.

I tried to get all knowledge with perfect attention so, I graduated with GPA 3,8.

Up to this date not losing my motivation for study, still continue learning.

Oscar Insitute in Dubai

Frontend developer Internship.

Jan 2022 - Apr 2022.

First of I would like to say thanks for Oscar insitute and for my team, We worked on same project.

It's the unforgettable internship which I have ever had.

This intern includes javascript, and helped to me increasing my javascript skill.

Udemy Javascript complete course Zero to Hero

Udemy Certificate Link:

Thanks for Udemy and Jonas an amazing Course of Javascript.
